## **Guest Fee Reminder**

*All members are reminded that the \$10.00 guest fee applies to the Outdoor Range and Outdoor practice targets as well as the Indoor Range. If you bring guest, please sign them in and pay in the guest fee box located in the Indoor Range*

## **Note from the Editor.**

Hunting season has begun! Send me your harvest pictures, and I will share them in the newsletter.

A special thanks to those who donated for the new stove! We collected over \$1,800! All funds were used to not only get a new stove, but repaint the kitchen and cover the extra expense spent on the floor.

Thanks to Candy and Jim for all the hard work put in to paint and clean the club house! It is looking very nice.

Next month is time for Board Nominations. If you would like to be part of the board or know someone who would, join us at the November meeting.

Dan Kollins

**Reminder: No smoking inside the club house and indoor range. This includes E-cigs and Vaping.**

## **Introduction**

Grab your gear and come out to the club for some practice to insure you are ready for your next shot of the lifetime.

Share your sport and invite a new shooter or experienced shooter to accompany you.

Do you remember who introduced you to the sport of archery? Maybe you could be that person for your new shooting partner.

## **Club Meetings**

The Meetings are held the first Thursday of the month 7pm, at the club house.

### Club I.D.

Remember to display your club I.D. card on your quiver or bow case. If you don't know someone, ask them to see their card. This is a way to meet members you don't know or haven't met. This could become your next shooting or hunting partner.

Remember, this is your club, and you have a right to card someone you don't know.

### NOTICE!

Broadhead arrows are allowed only in the sandpits!

No broadhead arrows are allowed in the indoor range.

Congrats David on a great hunt!!

From David Ross:

My brother in-law and sister own a ranch just north of Mack, Colorado where they have cattle and run an outfitter business called Rafter Y Ranch. I went for opening week of archery elk season this year. It was very hot during opening week so our game plan in the mornings was picking out areas to hike in and try calling them closer and moving according to bugling response. During opening week because of the heat and it being pretty early in the rut the bulls weren't too fired up just yet. In the evenings the plan of attack was locating the different water sources on the property.

On day four September 5, I was able to punch my tag using that strategy. At 3:47 pm I made a 45-yard shot on a nice bull that came into a wallow. I made the shot when he eventually offered a slightly quartering away position. My arrow passed through both lungs and stopped in his far side shoulder. He went 60 yards and expired.

My equipment

Bow: Mathews vxr 31.5 with 75lb draw weight

Arrow: Easton axis 5mm with brass 50 grain insert. 300 spine AAE max vanes

Broadhead: Sevr titanium 2.0 , 100 grain mechanical
